OSLO PASS APP - STEP BY STEP
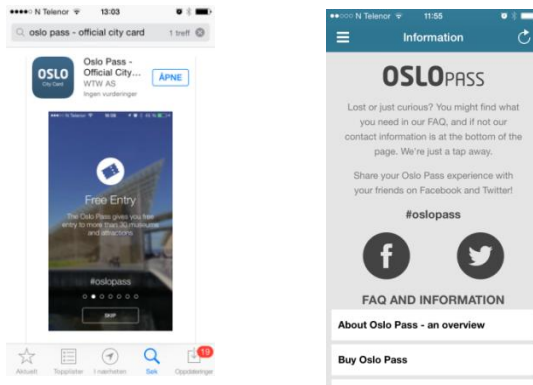

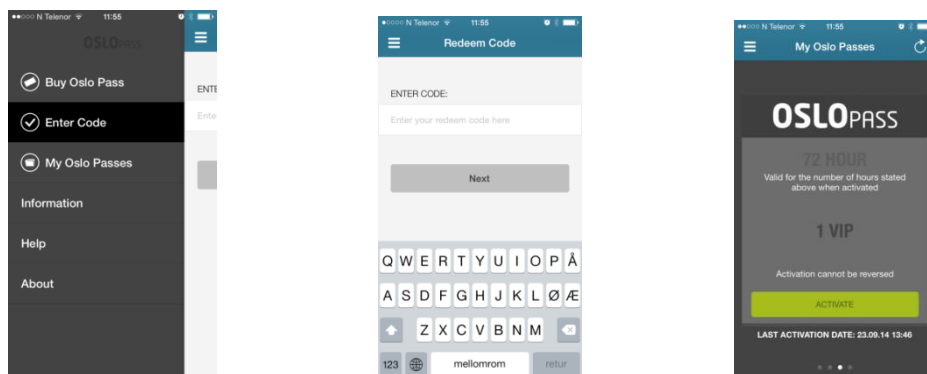

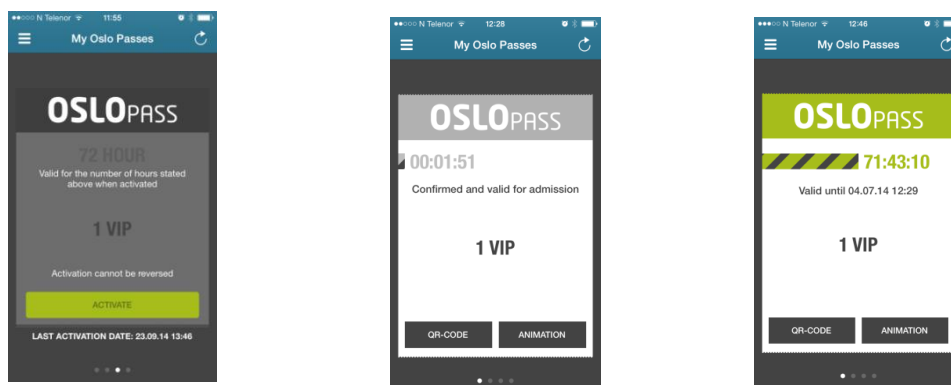

1. Download the free Oslo Pass City Card app through AppStore or GooglePlay, prior to departure. Familiarize yourself with the app and read the information.

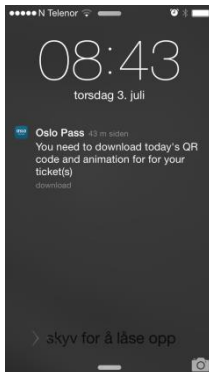

2. Register the *Oslo Pass* code, through "Enter Code" or "Redeem Code" (available on the top left menu) and confirm. Do not activate the *Oslo Pass* before your arrival in Oslo!

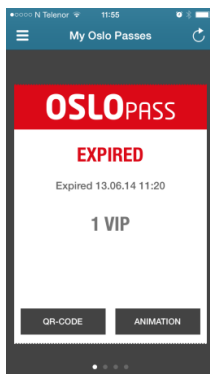

3. Once you have arrived in Oslo, please activate the *Oslo Pass* by pressing the green "activate" button while being online. Once activated, the *Oslo Pass* will stay grey for 2 minutes (security delay), before turning green.

4. Once activated (green) the remaining time of validity of your **Oslo Pass** is visible on the screen. The **Oslo Pass** now works offline, but please note that you need to be online once every morning to download the day's code. The Oslo Pass app will send you a reminder every morning, even if offline.

5. When expired, your **Oslo Pass** will turn red.

Enjoy our stay in Oslo and please make good use of the *Oslo Pass*!

(Free WIFI is available at the Tourist Information Office , in most hotel lobbies, at Flytoget (airport express train) and in several cafés and restaurants in Oslo)
